Summary

Full Stack Developer (MERN) with 15+ months of experience architecting and shipping production logistics and e-commerce platforms used in live business operations. Skilled in scalable backend APIs, role-based multi-tenant systems, payment and communication integrations, and AWS cloud deployment.

Experience

Full Stack Developer

May 2025 – Jul 2026

Our Courier and Logistics (OCL Services) — Guwahati, Assam

- Architected and led development of a multi-tenant logistics and courier management platform (MERN, Next.js) serving B2C customers, corporate clients, branch managers, and field couriers with role-based access control and JWT authentication.
- Built **CourierBoy**, a delivery-partner mobile app for assigning pickups, deliveries, and bookings to couriers, with real-time payment collection tracking and settlement.
- Built an **Attendance & Salary Management** app with geofenced attendance, admin-approved out-of-office check-ins, and automated daily salary, overtime, and deduction calculations with auto-generated payslips.
- Engineered a cron-driven automated billing system that aggregates corporate shipments monthly, generates PDF invoices, and dispatches them via email.
- Integrated AWS S3, Razorpay payments, MSG91 OTP authentication, Expo push notifications, and WhatsApp/email APIs for end-to-end workflow automation.
- Designed secure REST APIs (Node.js, Express) with JWT auth, rate limiting, CORS handling, and schema validation; deployed and managed production infrastructure on AWS.

Freelance Web Developer

2023 – 2024

Fiverr — Remote

- Delivered 20+ production websites using WordPress and WooCommerce for international clients, including secure payment gateways and SEO-ready architecture.
- Managed complete client lifecycle from requirement analysis through deployment and post-launch support.

Full Stack Developer Intern

Jun 2024 – Jul 2024

Indian Oil Corporation Ltd (IOCL) — Noonmati, Assam

- Built a real-time push notification system (MERN, Firebase), reducing delivery time by 50%, and deployed it across web and mobile platforms.

MERN Stack Developer Intern

Jun 2023 – Jul 2023

National Institute of Electronics and Information Technology (NIELIT) — Remote

- Developed a full-stack e-commerce application using React.js, Node.js, and MySQL.

Projects

E-commerce Platform — [ergorest.si](#) (WordPress, WooCommerce)

- Built and scaled an international e-commerce site with secure payments and order management, driving cumulative sales exceeding \$10,000.

Business Advisory Website — [anilkarakkattuu.com](#) (WordPress, Custom PHP/HTML/CSS)

- Developed a custom client website combining hand-coded PHP/HTML/CSS with WordPress, featuring an interactive lead-scoring calculator, dynamic content sections, and third-party booking integration.

Technical Skills
